Re: New Product Introduction - Titanium Collection - Titmus EXT11 and Titmus EXT12

The Titanium Collection represents the highest level of workmanship, performance and value. We are excited to introduce our latest styles: the **Titmus EXT11** and the **Titmus EXT12**.

Both the Titmus EXT11 and the Titmus EXT12 offer these great features:

1. 100% titanium construction assures superior strength-to-weight ratio.
2. Hypoallergenic materials prevent skin reactions to the frames.
3. OBE German made, double-action spring hinges for smooth operation every time.
4. Hand made and fashion-coordinated temple tips finish these contemporary, attractive styles.
5. Two eye sizes and three colors for a great range of options.
6. Constructed using the "N-Tite™" System for a leaner, cleaner profile and great looks.
7. **And introducing the new patented "flex" shield for more comfortable wear.**

Like all Uvex® Rx products, the Titmus EXT11 and Titmus EXT12 meet ANSI Z87.1 - 2003 Standards.
